

## About Independent Living Centre WA

Our mission is to guide people's choices to access assistive technology and services for independence and wellbeing.

In addition to our Technology services we provide:

- Assistive Equipment and Home Modification services
- Equipment Hire
- Noah's Ark Toy Library
- Grants and Equipment Funding
- Occupational Therapy Driver Assessment
- Training
- Carer Respite and Support

For more than 35 years, the ILC's experienced health professionals have been providing services to people with disability, older people, their carers, service providers, health professionals and educators.

## Technology Services

For Communication, Recreation,  
Independence and Safety

## Technology for communication, recreation, independence and safety

---

Technology can help you to:

- Communicate with others
- Connect with your community
- Learn at school and at home
- Participate in recreational activities, such as reading
- Use your computer, tablet or phone
- Undertake daily tasks safely
- Be more independent in your own home and when out and about

ILC Tech's speech pathologists and occupational therapists have experience, knowledge and skills in the areas of:

- Tablets, apps and smart phones
- Equipment to access the computer such as alternative keyboard and mouse options
- Technology for communication - Augmentative and Alternative Communication (AAC), high tech and low tech communication devices and voice amplifiers
- Smart home technology for controlling appliances such as televisions, DVD players and lights
- Software, apps and gadgets for supporting literacy and access to education

## Comprehensive technology services for you

---

The ILC offers services to ensure you not only get the right assistive technologies for your communication, learning, recreation, work and daily needs – but that you also know how to use it effectively.

With specialist skills in this area, our team have access to a wide range of current technologies on site and undertake regular professional development to ensure we remain up to date with new and emerging technologies.

The ILC provides a free information and advisory service as well as additional assessment and therapy services, which attract a fee. You can choose which level of service is right for you.

ILC's technology services are available for people of all ages and abilities, their family, carers, health providers and schools.

**The ILC is a registered provider for the National Disability Insurance Scheme (NDIA and My Way), Better Start for Children with Disability and Helping Children with Autism (HCWA) programs.**

## With the support of our speech pathologists and occupational therapists, you can:

---

### Explore your options for free

Contact our free information and advisory service to explore suitable technology options that will assist you to achieve your goals.

### Choose and purchase the best technology options for you

ILC's speech pathologists and occupational therapists can provide an assessment in your home, at your school or in the community to help you to determine the best technology options for you.

Following this we can support you to hire, trial and obtain equipment.

### Have confidence to use your technology

To give you confidence to use your technology, our therapists can assist you to set up your technology and can provide training, therapy and support for you to use it.

If you already have technology and would like support to use it, we can help you with this too.
